

## Setting up Application Environment

### Create IBM Cloud Account

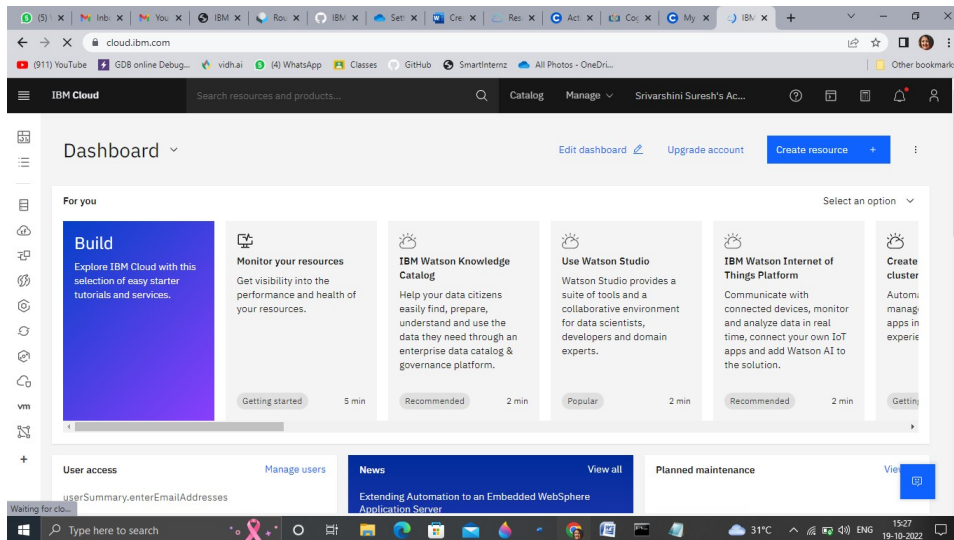

**Step 1.** Navigate to [ibm.com/academic](https://ibm.com/academic) and register with your smartinternz mail

The first screenshot shows the IBM SkillsBuild Software Downloads registration page. The user is at the '1. Account information' step. The form includes fields for E-mail (913119104100@smartintmz.com), First name (Swarshini), Last name (Swarshini), Password (masked with dots), and Country or region of residence (India). There is an 'AutoFill with LinkedIn' button. The second screenshot shows the '3. Verify email' step. The user is prompted to enter a 7-digit code (4703028) that was emailed to 913119104100@smartintmz.com. The code expires in 30 minutes. There is a 'Resend code' link. At the bottom, there is a checkbox for 'By email' and a link to 'opt-out request'.

**Step 2:** Now goto [cloud.ibm.com](https://cloud.ibm.com) and login with your registered mail id along with coupon code obtained from [ibm.com/academic](https://ibm.com/academic)

The screenshot shows the IBM Cloud login page. The user is prompted to log in with their IBM ID and email address. The email address entered is 'username@example.com'. There is a 'Continue' button and a 'Forgot ID?' link. The page also includes a 'Catalog' button, a 'Cost estimator' button, and a 'Docs' button. The footer shows the copyright information: '© Copyright IBM Corp. 2014, 2022. All rights reserved.'

## Output :

Cloud account created successfully.
